

A LETTER – APPEAL TO THE INTERNATIONAL TRADE UNION ORGANIZATIONS:
ICEM and PCI, EMCEF and EPSU

Belgrade, 19.9.2009

At the third regular Conference of the Regional Energy Trade Union Network of South East Europe, held on 19 September 2009 in Belgrade, the following LETTER – APPEAL was unanimously adopted to be sent to international trade union organizations ICEM and PCI, EMCEF and EPSU:

- The Regional Network (RETUNSEE) is very much concerned about the disunified actions of international trade union centres! **More specifically, their isolated acts and rivalry have very detrimental effects to the interests and rights of employees in Europe and worldwide!!!** While gross capital and neoliberal policy are setting in, destroying in the past 20 years the so-far achievements of employees, trade unionist movement and institutions of the social justice society, humanism and democracy, the world of labour and trade unions are retiring, without a clear long-term strategy, policy of acting and clear goals!

The Regional Energy Trade Union Network of South East Europe is calling upon ICEM and PCI, EMCEF and EPSU to get unified and to act concertedly, resolutely and with a clear long-term strategy, for the interests of employees, pensioners and citizens of Europe and the world!!!

The Regional Network deems it necessary for the above mentioned European and world trade union organizations to seriously consider the facts and this letter, given that the appeal is sent from all member-organizations of RETUNSEE, also member-organizations of these international trade union centres!

THE RETUNSEE GENERAL ASSEMBLY
