Resolution of the Regional Energy Trade Unions Network of South Eastern Europe (RETUNSEE) and its member Organizations AGAINST the SALE of PUBLIC POWER CORPORATION in GREECE

RESOLUTION

The Greek government is proceeding with its disastrous plans that threaten directly the EXISTENCE of Public Power Corporation (PPC) and its Group. It contradicts itself abandoning its claims of the past, when it said that PPC was a national capital, a national cause and part of this country's history.

The first industrial enterprise of the country, with a huge contribution in the national, economic, social and labour sphere, is being severely tested due to the Government's political choices and decisions.

After the sale/concession of the national electricity transmission network, the Government -with unacceptable insistence, satisfying the demands of lenders, loan sharks and the aspiring state suitors- is now entering the second phase of its itinerary, which is privatization of lignite plants and mines.

An asset that was constructed and developed with investments coming from the social security contributions of workers and with the participation of the Greek consumer.

The Government owes the Greek society some explanations.

No reason can ever be sufficient for a business of strategic importance for Greece, such as the PPC Group, to be sold off piece by piece and become prey to local and foreign interests.

The HISTORY of a place cannot be sold or bought out. There is no moral or financial ground on which to estimate a price for it.

The RETUNSEE Network and its member organizations support the struggle of the Network's workers and member Organizations, E.TE.DEI and SPARTAKOS, with every means and form of fight
AGAINST THE SALE OF THE PUBLIC POWER CORPORATION
AGAINST PRIVATIZATION OF ENERGY COMPANIES OF STRATEGIC IMPORTANCE

RETUNSEE EXECUTIVE COMMITTEE
